## User Detail

```
Name :  
Contact:  
Desction :
```

Step:

1: [dir name]/>create-react-app react-redux-app

2: cd react-redux-app

3: install redux in application, write below commands from <http://redux.js.org/>

```
npm install --save redux
```

```
npm install --save react-redux
```

```
npm install --save-dev redux-devtools
```

4: varify the redux and react-redux in package.json file.

5: open the react-redux-app in visual studio and remove App files and code from index.js file.

6: write below code in index.js and check on browser.

```
import React from 'react';  
import ReactDOM from 'react-dom';  
ReactDOM.render(<h1>React-Redux App</h1>,document.getElementById('root'));
```
